

TRIPLE WASHING MACHINE

Capacity: 7.5-11 kW 750-1500 Minutes Cycle 380 Volts
Product Capacity: 70 Kgs
Cleaning Time: 12 Minutes
Cleaning Rate: % 100
Cleaning Temperature: 15-20 Degrees°
IP: 65 Electrical Panels
Dimensions: 120*200 h: 120 cm
Machine Weight: 570 Kgs
Material: All parts are made of stainless steel

This machine is produced for washing and cleaning tripe of large and small animals.

Works with hot water. No need to use chemical cleaner for cleaning. It makes reliable cleaning for human health. Cleaning equipment is modular. 3 different cleaning disc can be installed. In this way tripe, tendon and foot can easily perform cleaning operations. 304 CRNI quality stainless made of steel.

TRIPLE DEGREASING MACHINE

Capacity: 7.5-11 kW 750-1500 Minutes Cycle 380 Volts
Product Capacity: 70 Kgs

INDUSTRIAL HYGIENE BARRIER

It contains a toll gate pass system that opens contactless hand washing and disinfectant take for both hands.

Stainless steel, with sink and sensor.

It includes bonnet, shoe covers, mask and trash bin sections.

It is a system that allows the personnel to enter the production facility with the opening of the toll gate system as a purpose of the cleaning of the hands and feet in the manufacturing factories. It is generally used in the food, paint, chemical and pharmaceutical industries.

PERSONNEL HYGIENE BARRIER

It provides the contactless hand washing and both hands free disinfection with toll gate system

Stainless steel, with sink and sensor.

It has designed for to be useful and stylish appearance purposes .

It is a system that allows the personnel of the facilities to enter the production facility with the opening of the toll gate system on purposes of the cleaning of the hands and feet in the manufacturing factories. It is generally used in the nutrition, paint, chemical and pharmaceutical industry fields.

SUGAR POWDER MACHINE

Capacity: 200 kg/h
Engine: 4 kW 3000
Micron Thickness: 60
Weight: 130 kg
Material: Chrome Nickel Sheet which are suitable for food.

High quality stainless steel. By the help of It's wheel structure, it provides convenience in movement.

With the grinding process, it minimalizes the product's thickness to powdered sugar level.

SUGAR POWDER MACHINE

Grinds icing sugar and reduces It to powdered sugar thickness

Wheel for Motion Convenience

Made of Chrome Nickel suitable to nourishment

It is made of High Quality Satainless Steel

SPARE PART WASHING MACHINE

Machine Measurement:
Height: 120 cm
Width: 50 cm
Length: 75 cm
Weight: 70 kg

Glove parts washing machine works with pedal system. Washing liquid flows through the cleaning brush when the pedal is pressed.

SPARE PART WASHING MACHINE

Washing Machine Measurement: 1400 mm
Loading Haight: 750 mm
Basket Capacity: 700 KG
Pump Pressure: 3,6 bar x 30 ton/hour
 2 piece
Machine Exterior Measurements
Width\Length\Height:
 1600 x 2000 x 1800 mm
Total Nozzle Number: 120 piece
Heater Power: 15 kw
Electric (V/faz): 380 V / 3
Digital Timer: 0-90 min
Storage Volume: 220 lt
Total Machine Weight: 600 kg

The basket in the spare part washing machine which is placed inside the counter, cleans the pieces by spraying detergent and water while the basket inside the counter is spinning.

TOMATO PASTE MACHINE

-3 hp Monophasic Electric Motor
 -300 kg Raw Tomato Per Hour
 -300 kg Boiled Pepper Per Hour
 -304 Stainless Steel Chrome Nickel Material

TOMATO PASTE MACHINE

3 Kw 1400 min.
 220 V Electric Motor
 Ton Per Hour Capacity
 304 Quality Chromickel Material
 Separation of Peel and Seed
 Wheel for Motion Convenience
 Ergonomic and Stylish Design

POWDER MIXING MACHINE

Suitable for food made of stainless steel.

Mechanism to mix powder effectively

The powders are suitable for use, industries such as food, spice, construction, agriculture, food powder, dry mortar powder, fertilizer and seeds..

SAPROOT MIXER

- 1,1 kw 380 volt electric motor
 - 100 liter boiler capacity
 - Fully 304 quality chrome nickel material
 - Ergonomic Design
 - Quiet running engine
